

OUTFORM Optical Splitter Specification

Model:20A0020-A01-E001

Brand:OUTFORM

Product features

- One channel of optic signal input, three channel of optic signal output
- Support audio format: LCPM2.0/DTS/AC3
- Support signal timing shaping
- The cable loss is less than 0.2dB /M, and the maximum output distance is 40M
- Support overvoltage protection, prevent positive and negative short circuit
- Type-C for interface for power supply
- Peak wavelength 650nm
- The transmission rate is 16M
- Rated power:DC5V0.1A
- Dimension:126*34.5*20.5mm
- Operating temperature: -10°C~65°C
- Storage temperature: -20°C~85°C
